Englyst KN & Englyst HN Carbohydrate bioavailability (Horizons in Nutritional Science). 1

Maloney CA, Lilley C, Cruickshank M, McKinnon C, Hay SM & Rees WD The expression of growth-arrest genes in the liver and kidney of the protein-restricted rat fetus. 12

Melis GC, Boelens PG, van der Sijp JRM, Popovici T, De Bandt J-P, Cynober L & van Leeuwen PAM The feeding route (enteral or parenteral) affects the plasma response of the dipetide Ala-Gln and the amino acids glutamine, citrulline and arginine, with the administration of Ala-Gln in preoperative patients. 19

Newbold CJ, López S, Nelson N, Ouda JO, Wallace RJ & Moss AR Propionate precursors and other metabolic intermediates as possible alternative electron acceptors to methanogenesis in ruminal fermentation *in vitro*. 27

Miguel M, Muguerza B, Sánchez E, Delgado MA, Recio I, Ramos M & Aleixandre MA Changes in arterial blood pressure in hypertensive rats caused by long-term intake of milk fermented by *Enterococcus faecalis* CECT 5728. 36

Ribeiro CCC, Tabchoury CPM, Del Bel Cury AA, Tenuta LMA, Rosalen PL & Cury JA Effect of starch on the cariogenic potential of sucrose. 44

Man YC, Yee CW, Shing WK, Lai TP, Ching WK & Kei KK The enhancing effects of a chicken-meat extract on serum Ig concentrations in normal and scalded animals. 51

Reilly JJ, Ashworth S & Wells JCK Metabolisable energy consumption in the exclusively breast-fed infant aged 3–6 months from the developed world: a systematic review. 56

Edwards JE, Bequette BJ, McKain N, McEwan NR & Wallace RJ Influence of flavomycin on microbial numbers, microbial metabolism and gut tissue protein turnover in the digestive tract of sheep. 64

García-Martínez R, Ranilla MJ, Tejido ML & Carro MD Effects of disodium fumarate on *in vitro* rumen microbial growth, methane production and fermentation of diets differing in their forage:concentrate ratio. 71

Kristensen MB, Hels O, Morberg C, Marving J, Bügel S & Tetens I Pork meat increases iron absorption from a 5-day fully controlled diet when compared to a vegetarian diet with similar vitamin C and phytic acid content. 78

Mizuno S, Matsuura K, Gotou T, Nishimura S, Kajimoto O, Yabune M, Kajimoto Y & Yamamoto N Antihypertensive effect of casein hydrolysate in a placebo-controlled study in subjects with high-normal blood pressure and mild hypertension. 84

Jeanes YM, Hall WL & Lodge JK Comparative ^{2}H-labelled α-tocopherol biokinetics in plasma, lipoproteins, erythrocytes, platelets and lymphocytes in normolipidaemic males. 92

Bamia C, Orfanos P, Ferrari P, Overvad K, Hundborg HH, Tjønneland A, Olsen A, Kesse E, Boutron-Ruault M-C, Clavel-Chapelon F, Nagel G, Boffetta P, Boeing H, Hoffmann K, Trichopoulos D, Baibas N, Psaltopoulou T, Norat T, Slimani N, Palli D, Krogh V, Panico S, Tumino R, Sacerdote C, Bueno-de-Mesquita HB, Ocké MC, Peeters PH, van Rossum CT, Quirós J-R, Sánchez M-J, Navarro C, Barricarte A, Dorronsoro M, Berglund G, Wirfält E, Hallmans G, Johansson I, Bingham S, Khaw K-T, Spencer EA, Roddam AW, Riboli E & Trichopoulou A Dietary patterns among older Europeans: the EPIC-Elderly study. 100

Kelly SAM, Summerbell C, Rugg-Gunn AJ, Adamson A, Fletcher E & Moynihan PJ Comparison of methods to estimate non-milk extrinsic sugars and their application to sugars in the diet of young adolescents. 114

Galan P, Briançon S, Favier A, Bertrais S, Preziosi P, Faure H, Arnaud J, Arnault N, Czernichow S, Mennen L & Hercberg S Antioxidant status and risk of cancer in the SU.VI.MAX study: is the effect of supplementation dependent on baseline levels? 125

Brand-Miller JC & Wolever TMS The use of glycaemic index tables to predict glycaemic index of breakfast meals (Nutrition Discussion Forum). 133

Flint A, Møller BK, Raben A, Tetens I, Holst JJ & Astrup A The use of glycaemic index tables to predict glycaemic index of breakfast meals (Nutrition Discussion Forum). 135

Rees WD Book review. 137

Higdon JV & Frei B Is there a gender difference in the effect of antioxidants on cancer risk? (Invited commentary). 139

Duggleby SL & Waterlow JC The end-product method of measuring whole-body protein turnover: a review of published results and a comparison with those obtained by leucine infusion (Review article). 141

Marsh K & Brand-Miller J The optimal diet for women with polycystic ovary syndrome? (Review article). 154

Chango A, Fillon-Emery N, Mircher C, Bléhaut H, Lambert D, Herbeth B, James SJ, Réthoré M-O & Nicolas JP No association between common polymorphisms in genes of folate and homocysteine metabolism and the risk of Down's syndrome among French mothers. 166

Tsang C, Auger C, Mullen W, Bornet A, Rouanet J-M, Crozier A & Teissedre P-L The absorption, metabolism and excretion of flavan-3-ols and procyanidins following the ingestion of a grape seed extract by rats. 170

Nozière P, Rémond D, Lemosquet S, Chauveau B, Durand D & Poncet C Effect of site of starch digestion on portal nutrient net fluxes in steers. 182

Sabboh H, Horcajada M-N, Coxam V, Tressol J-C, Besson C, Rémésy C & Demigné C Effect of potassium salts in rats adapted to an acidogenic high-sulfur amino acid diet. 192

Sarri KO, Kafatos AG & Higgins S Is religious fasting related to iron status in Greek Orthodox Christians? 198

Díez N, Pérez R, Hurtado V & Santidrián S Hyperhomocysteinaemia induced by dietary folate restriction causes kidney oxidative stress in rats. 204

Guerra MC, Galvano F, Bonsi L, Speroni E, Costa S, Renzulli C & Cervellati R Cyanidin-3-O-β-glucopyranoside, a natural free-radical scavenger against aflatoxin B1- and ochratoxin A-induced cell damage in a human hepatoma cell line (Hep G2) and a human colonic adenocarcinoma cell line (CaCo-2). 211

García-de-Lorenzo A, Denia R, Atlan P, Martinez-Ratero S, Le Brun A, Evard D & Bereziat G Parenteral nutrition providing a restricted amount of linoleic acid in severely burned patients: a randomised double-blind study of an olive oil-based lipid emulsion *v.* medium/long-chain triacylglycerols. 221

Bügel S, Harper A, Rock E, O'Connor JM, Bonham MP & Strain JJ Effect of copper supplementation on indices of copper status and certain CVD risk markers in young healthy women. 231

Burdge GC, Tricon S, Morgan R, Kliem KE, Childs C, Jones E, Russell JJ, Grimble RF, Williams CM, Yaqoob P & Calder PC Incorporation of *cis*-9, *trans*-11 conjugated linoleic acid and vaccenic acid (*trans*-11 18:1) into plasma and leucocyte lipids in healthy men consuming dairy products naturally enriched in these fatty acids. 237

Kruger MC, Plimmer GG, Schollum LM, Haggarty N, Ram S & Palmano K The effect of whey acidic protein fractions on bone loss in the ovariectomised rat. 244

Trebble TM, Stroud MA, Wootton SA, Calder PC, Fine DR, Mullee MA, Moniz C & Arden NK High-dose fish oil and antioxidants in Crohn's disease and the response of bone turnover: a randomised controlled trial. 253

LeBlanc JG, Burgess C, Sesma F, de Giori GS & van Sinderen D *Lactococcus lactis* is capable of improving the riboflavin status in deficient rats. 262

Mitamura R & Hara H Prolonged feeding of difructose anhydride III increases strength and mineral concentrations of the femur in ovariectomized rats. 268

Oikawa D, Nakanishi T, Nakamura Y, Yamamoto T, Yamaguchi A, Shiba N, Iwamoto H, Tachibana T & Furuse M Modification of skin composition by conjugated linoleic acid alone or with combination of other fatty acids in mice. 275

Sébert SP, Lecannu G, Sené S, Hucteau S, Chetiveaux M, Ouguerram K & Champ MM-J. Obesity induced during sexual maturation is linked to LDL-triacylglycerols in Yucatan miniature swine. 282

Papadaki A & Scott JA The Mediterranean Eating in Scotland Experience project: evaluation of an Internet-based intervention promoting the Mediterranean diet. 290

Trayhurn P *Tempus fugit* – evolution and current impact of the *British Journal of Nutrition* (Editorial: IUNS 2005). 299

Fuchs D, Winkelmann I, Johnson IT, Mariman E, Wenzel U & Daniel H Proteomics in nutrition research: principles, technologies and applications (Horizons in Nutritional Science). 302

Huanling Y, Yong L, Junbo W, Liping Z & Weixing Y Chinese soft-shelled turtle egg powder lowers serum cholesterol, increases faecal neutral steroids and bile acid excretion, and up-regulates liver cytochrome P450 mRNA level in rats. 315

Gudbrandsen OA, Wergedahl H, Liaset B, Espe M & Berge RK Dietary proteins with high isoflavone content or low methionine–glycine and lysine–arginine ratios are hypocholesterolaemic and lower the plasma homocysteine level in male Zucker fa/fa rats. 321

van Bennekum AM, Nguyen DV, Schulthess G, Hauser H & Phillips MC Mechanisms of cholesterol-lowering effects of dietary insoluble fibres: relationships with intestinal and hepatic cholesterol parameters. 331

Fiorani M & Accorsi A Dietary flavonoids as intracellular substrates for an erythrocyte trans-plasma membrane oxidoreductase activity. 338

Cassagno N, Palos-Pinto A, Costet P, Breilh D, Darmon M & Bérard AM Low amounts of *trans* 18 : 1 fatty acids elevate plasma triacylglycerols but not cholesterol and alter the cellular defence to oxidative stress in mice. 346

Gómez-Requeni P, Calduch-Giner J, Vega-Rubín de Celis S, Médale F, Kaushik SJ & Pérez-Sánchez J Regulation of the somatotropic axis by dietary factors in rainbow trout (*Oncorhynchus mykiss*). 353

Maskarinec G, Takata Y, Murphy SP, Franke AA & Kaaks R Insulin-like growth factor-1 and binding protein-3 in a 2-year soya intervention among premenopausal women. 362

Prynne CJ, Paul AA, Mishra GD, Greenberg DC & Wadsworth MEJ Changes in intake of key nutrients over 17 years during adult life of a British birth cohort. 368

Brekke HK, Ludvigsson JF, van Odijk J & Ludvigsson J Breastfeeding and introduction of solid foods in Swedish infants: the All Babies in Southeast Sweden study. 377

Carvalhaes MA de BL, D'Aquino Benício MH & Barros AJD Social support and infant malnutrition: a case–control study in an urban area of Southeastern Brazil. 383

Sarraf Z, Goldberg D, Shahbazi M, Arbuckle K & Salehi M Nutritional status of schoolchildren in rural Iran. 390

Schulz M, Liese AD, Mayer-Davis EJ, D'Agostino RB, Fang F, Sparks KC & Wolever TM Nutritional correlates of dietary glycaemic index: new aspects from a population perspective. 397

Shi H-J, Nakamura K, Shimbo M & Takano T Dietary supplement consumption among urban adults influenced by psychosocial stress: its pronounced influence upon persons with a less healthy lifestyle. 407

Merens W, Booij L, Markus R, Zitman FG, Onkenhout W & Van der Does AJW The effects of a diet enriched with α-lactalbumin on mood and cortisol response in unmedicated recovered depressed subjects and controls. 415

Vereecken CA, De Henauw S & Maes L Adolescents' food habits: results of the Health Behaviour in School-aged Children survey. 423

Bérubé-Parent S, Pelletier C, Doré J & Tremblay A Effects of encapsulated green tea and Guarana extracts containing a mixture of epigallocatechin-3-gallate and caffeine on 24 h energy expenditure and fat oxidation in men. 432

Patwari AK, Kapur G, Satyanarayana L, Anand VK, Jain A, Gangil A & Balani B Catch-up growth in children with late-diagnosed coeliac disease. 437

Ryan E, Chopra J, McCarthy F, Maguire AR & O'Brien NM Qualitative and quantitative comparison of the cytotoxic and apoptotic potential of phytosterol oxidation products with their corresponding cholesterol oxidation products. 443

Albers R, Antoine J-M, Bourdet-Sicard R, Calder PC, Gleeson M, Lesourd B, Samartín S, Sanderson IR, Van Loo J, Vas Dias FW & Watzl B Markers to measure immunomodulation in human nutrition intervention studies. 452

Zittermann A, Schleithoff SS & Koerfer R Putting cardiovascular disease and vitamin D insufficiency into perspective (Review article). 483

Saito K, Arai S & Kato H A nutrigenomics database – integrated repository for publications and associated microarray data in nutrigenomics research (Short communication). 493

Ross AB, Becker W, Chen Y, Kamal-Eldin A & Åman P Intake of alkylresorcinols from wheat and rye in the United Kingdom and Sweden. 496

Ito H, Gonthier M-P, Manach C, Morand C, Mennen L, Rémésy C & Scalbert A Polyphenol levels in human urine after intake of six different polyphenol-rich beverages. 500

Oikarinen SI, Pajari A-M, Salminen I, Heinonen S-M, Adlercreutz H & Mutanen M Effects of a flaxseed mixture and plant oils rich in α-linolenic acid on the adenoma formation in multiple intestinal neoplasia (Min) mice. 510

Ryan L, O'Callaghan YC & O'Brien NM The role of the mitochondria in apoptosis induced by 7β-hydroxycholesterol and cholesterol-5β,6β-epoxide. 519

Kang MJ, Shin MS, Park JN & Lee SS The effects of polyunsaturated:saturated fatty acids ratios and peroxidisability index values of dietary fats on serum lipid profiles and hepatic enzyme activities in rats. 526

Wallace JM, Milne JS & Aitken RP The effect of overnourishing singleton-bearing adult ewes on nutrient partitioning to the gravid uterus. 533

Goswami UC & Sharma N Efficiency of a few retinoids and carotenoids *in vivo* in controlling benzo[*a*]pyrene-induced forestomach tumour in female Swiss mice. 540

Xiao Y, Huang Y & Chen Z-Y Distribution, depletion and recovery of docosahexaenoic acid are region-specific in rat brain. 544

Belza A, Ersbøll AK, Henriksen M, Thilsted SH & Tetens I Day-to-day variation in iron-status measures in young iron-deplete women. 551

Harvey LJ, Armah CN, Dainty JR, Foxall RJ, Lewis DJ, Langford NJ & Fairweather-Tait SJ Impact of menstrual blood loss and diet on iron deficiency among women in the UK. 557

Laitinen K, Kalliomäki M, Poussa T, Lagström H & Isolauri E Evaluation of diet and growth in children with and without atopic eczema: follow-up study from birth to 4 years. 565

Gostner A, Schäffer V, Theis S, Menzel T, Lührs H, Melcher R, Schauber J, Kudlich T, Dusel G, Dorbath D, Kozianowski G & Scheppach W Effects of isomalt consumption on gastrointestinal and metabolic parameters in healthy volunteers. 575

Schoppen S, Pérez-Granados AM, Carbajal A, Sarriá B, Sánchez-Muniz FJ, Gómez-Gerique JA & Vaquero MP Sodium bicarbonated mineral water decreases postprandial lipaemia in postmenopausal women compared to a low mineral water. 582

Robertson C, Conway R, Dennis B, Yarnell J, Stamler J & Elliott P Attainment of precision in implementation of 24 h dietary recalls: INTERMAP UK. 588

Liu C-C, Huang C-C, Lin W-T, Hsieh C-C, Huang S-Y, Lin S-J & Yang S-C Lycopene supplementation attenuated xanthine oxidase and myeloperoxidase activities in skeletal muscle tissues of rats after exhaustive exercise. 595

Williams E, Stewart-Knox B, Bradbury I, Rowland I, Pentieva K, Helander A & McNulty H Effect of folic acid supplementation on mood and serotonin response in healthy males. 602

Rousset S, Deiss V, Juillard E, Schlich P & Droit-Volet S Emotions generated by meat and other food products in women. 609

Metges CC & Petzke KJ Utilization of essential amino acids synthesized in the intestinal microbiota of monogastric mammals (Invited commentary). 621

Kaput J, Ordovas JM, Ferguson L, van Ommen B, Rodriguez RL, Allen L, Ames BN, Dawson K, German B, Krauss R, Malyj W, Archer MC, Barnes S, Bartholomew A, Birk R, van Bladeren P, Bradford KJ, Brown KH, Caetano R, Castle D, Chadwick R, Clarke S, Clément K, Cooney CA, Corella D, da Cruz IBM, Daniel H, Duster T, Ebbesson SOE, Elliott R, Fairweather-Tait S, Felton J, Fenech M, Finley JW, Fogg-Johnson N, Gill-Garrison R, Gibney MJ, Gillies PJ, Gustafsson J-A, Hartman IV JL, He L, Hwang J-K, Jais J-P, Jang Y, Joost H, Junien C, Kanter M, Kibbe WA, Koletzko B, Korf BR, Kornman K, Krempin DW, Langin D, Lauren DR, Lee JH, Leveille GA, Lin S-J, Mathers J, Mayne M, McNabb W, Milner JA, Morgan P, Muller M, Nikolsky Y, van der Ouderaa F, Park T, Pensel N, Perez-Jimenez F, Poutanen K, Roberts M, Saris WHM, Schuster G, Shelling AN, Simopoulos AP, Southon S, Tai ES, Towne B, Trayhurn P, Uauy R, Visek WJ, Warden C, Weiss R, Wiencke J, Winkler J, Wolff GL, Zhao-Wilson X & Zucker J-D The case for strategic international alliances to harness nutritional genomics for public and personal health (Horizons in Nutritional Science). 623

Baxter JP, Fayers PM & McKinlay AW A review of the instruments used to assess the quality of life of adult patients with chronic intestinal failure receiving parenteral nutrition at home (Review article). 633

Anlasik T, Sies H, Griffiths HR, Mecocci P, Stahl W & Polidori MC Dietary habits are major determinants of the plasma antioxidant status in healthy elderly subjects (Short communication). 639

Arrigoni E, Brouns F & Amadò R Human gut microbiota does not ferment erythritol (Short communication). 643

Oomen JM, Waijers PMCM, van Rossum C, Hoebee B, Saris WHM & van Baak MA Influence of $ß_2$-adrenoceptor gene polymorphisms on diet-induced thermogenesis. 647

Yu P Protein secondary structures (α-helix and β-sheet) at a cellular level and protein fractions in relation to rumen degradation behaviours of protein: a new approach. 655

Katsumata S-i, Masuyama R, Uehara M & Suzuki K High-phosphorus diet stimulates receptor activator of nuclear factor-κB ligand mRNA expression by increasing parathyroid hormone secretion in rats. 666

Schindler R, Fielenbach T & Rave G A comparative study on the effects of oral amiodarone and trimeprazine, two *in vitro* retinyl ester hydrolase inhibitors, on the metabolic availability of vitamin A in rats. 675

Müller H, Grande T, Ahlstrøm Ø & Skrede A A diet rich in phosphatidylethanolamine increases plasma homocysteine in mink: a comparison with a soyabean oil diet. 684

Sar C, Mwenya B, Pen B, Takaura K, Morikawa R, Tsujimoto A, Kuwaki K, Isogai N, Shinzato I, Asakura Y, Toride Y & Takahashi J Effect of ruminal administration of *Escherichia coli* wild type or a genetically modified strain with enhanced high nitrite reductase activity on methane emission and nitrate toxicity in nitrate-infused sheep. 691

Kokalas N, Petridou A, Nikolaidis MG & Mougios V Effect of aerobic exercise on lipaemia and its fatty acid profile after a meal of moderate fat content in eumenorrhoeic women. 698

Nilsson U & Nyman M Short-chain fatty acid formation in the hindgut of rats fed oligosaccharides varying in monomeric composition, degree of polymerisation and solubility. 705

Fushimi T & Sato Y Effect of acetic acid feeding on the circadian changes in glycogen and metabolites of glucose and lipid in liver and skeletal muscle of rats. 714

Tetens I, Larsen TM, Kristensen MB, Hels O, Jensen M, Morberg CM, Thomsen AD, Højgaard L & Henriksen M The importance of dietary composition for efficacy of iron absorption measured in a whole diet that includes rye bread fortified with ferrous fumerate: a radioisotope study in young women. 720

Sweeney MR, McPartlin J, Weir DG, Daly S, Pentieva K, Daly L & Scott JM Evidence of unmetabolised folic acid in cord blood of newborn and serum of 4-day-old infants. 727

Miguel M, López-Fandiño R, Ramos M & Aleixandre A Short-term effect of egg-white hydrolysate products on the arterial blood pressure of hypertensive rats. 731

Salas A, Esteve M, Grasa MM & Remesar X Rats treated with oleoyl-oestrone maintain glucidic homeostasis: comparisons with a pair-fed model. 738

Zhang H, Guo Y & Yuan J Conjugated linoleic acid enhanced the immune function in broiler chicks. 746

Mitre R, Etienne M, Martinais S, Salmon H, Allaume P, Legrand P & Legrand AB Humoral defence improvement and haematopoiesis stimulation in sows and offspring by oral supply of shark-liver oil to mothers during gestation and lactation. 753

Belenguer A, Balcells J, Guada JA, Decoux M & Milne E Protein recycling in growing rabbits: contribution of microbial lysine to amino acid metabolism. 763

Murray J-AMD, Longland AC, Moore-Colyer MJS & Dunnett C The effect of enzyme treatment on the *in vitro* fermentation of lucerne incubated with equine faecal inocula. 771

Bakker-Zierikzee AM, Alles MS, Knol J, Kok FJ, Tolboom JJM & Bindels JG Effects of infant formula containing a mixture of galacto- and fructo-oligosaccharides or viable *Bifidobacterium animalis* on the intestinal microflora during the first 4 months of life. 783

Smedman A, Basu S, Jovinge S, Fredrikson GN & Vessby B Conjugated linoleic acid increased C-reactive protein in human subjects. 791

Buyken AE, Dettmann W, Kersting M & Kroke A Glycaemic index and glycaemic load in the diet of healthy schoolchildren: trends from 1990 to 2002, contribution of different carbohydrate sources and relationships to dietary quality. 796

Powell JJ, McNaughton SA, Jugdaohsingh R, Anderson SHC, Dear J, Khot F, Mowatt L, Gleason KL, Sykes M, Thompson RPH, Bolton-Smith C & Hodson MJ A provisional database for the silicon content of foods in the United Kingdom. 804

McNaughton SA, Bolton-Smith C, Mishra GD, Jugdaohsingh R & Powell JJ Dietary silicon intake in post-menopausal women. 813

Vella V Goitre decline in Italy and contribution of the silent and active prophylaxis. 818

Thane CW, Jones AR, Stephen AM, Seal CJ & Jebb SA Whole-grain intake of British young people aged 4–18 years. 825

Mattisson I, Wirfält E, Aronsson CA, Wallström P, Sonestedt E, Gullberg B & Berglund G Misreporting of energy: prevalence, characteristics of misreporters and influence on observed risk estimates in the Malmö Diet and Cancer cohort. 832

Bader N, Bosy-Westphal A, Dilba B & Müller MJ Intra- and interindividual variability of resting energy expenditure in healthy male subjects – biological and methodological variability of resting energy expenditure. 843

Berti C, Riso P, Brusamolino A & Porrini M Effect on appetite control of minor cereal and pseudocereal products. 850

Sabaté J, Cordero-MacIntyre Z, Siapco G, Torabian S & Haddad E Does regular walnut consumption lead to weight gain? 859
Boucher BJ Postprandial hypotension in the elderly: what is the metabolic chain of events? (Letter to the editor). 865
Yaqoob P Monounsaturated fatty acids in parenteral nutrition: evaluation of risks and benefits (Invited commentary). 867
Reilly JJ & Wells JCK Duration of exclusive breast-feeding: introduction of complementary feeding may be necessary before 6 months of age (Horizons in Nutritional Science). 869
Frankenfeld CL, Atkinson C, Thomas WK, Gonzalez A, Jokela T, Wähälä K, Schwartz SM, Li SS & Lampe JW High concordance of daidzein-metabolizing phenotypes in individuals measured 1 to 3 years apart (Short communication). 873
Villeneuve L, Gisbert E, Zambonino-Infante JL, Quazuguel P & Cahu CL Effect of nature of dietary lipids on European sea bass morphogenesis: implication of retinoid receptors. 877
Birk RZ, Regan KS & Brannon PM Lactation decreases pancreatic lipase mRNA level in the rat. 885
Suruga K, Kitagawa M, Yasutake H, Takase S & Goda T Diet-related variation in cellular retinol-binding protein type II gene expression in rat jejunum. 890
Sato M, Shibata K, Nomura R, Kawamoto D, Nagamine R & Imaizumi K Linoleic acid-rich fats reduce atherosclerosis development beyond its oxidative and inflammatory stress-increasing effect in apolipoprotein E-deficient mice in comparison with saturated fatty acid-rich fats. 896
Han K-H, Iijuka M, Shimada K-i, Sekikawa M, Kuramochi K, Ohba K, Ruvini L, Chiji H & Fukushima M Adzuki resistant starch lowered serum cholesterol and hepatic 3-hydroxy-3-methylglutaryl-CoA mRNA levels and increased hepatic LDL-receptor and cholesterol 7α-hydroxylase mRNA levels in rats fed a cholesterol diet. 902
Vahedi K, Atlan P, Joly F, Le Brun A, Evard D, Perennec V, Roux-Haguenau D, Bereziat G & Messing B A 3-month double-blind randomised study comparing an olive oil- with a soyabean oil-based intravenous lipid emulsion in home parenteral nutrition patients. 909
Henry CJK, Lightowler HJ, Strik CM & Storey M Glycaemic index values for commercially available potatoes in Great Britain. 917
Henry CJK, Lightowler HJ, Strik CM, Renton H & Hails S Glycaemic index and glycaemic load values of commercially available products in the UK. 922
Sallé A, Ryan M, Guilloteau G, Bouhanick B, Berrut G & Ritz P 'Glucose control-related' and 'non-glucose control-related' effects of insulin on weight gain in newly insulin-treated type 2 diabetic patients. 931
Gopalakrishnan GS, Gardner DS, Dandrea J, Langley-Evans SC, Pearce S, Kurlak LO, Walker RM, Seetho IW, Keisler DH, Ramsay MM, Stephenson T & Symonds ME Influence of maternal pre-pregnancy body composition and diet during early–mid pregnancy on cardiovascular function and nephron number in juvenile sheep. 938
Ells LJ, Seal CJ, Kettlitz B, Bal W & Mathers JC Postprandial glycaemic, lipaemic and haemostatic responses to ingestion of rapidly and slowly digested starches in healthy young women. 948
Yan L, Zhou B, Nigdikar S, Wang X, Bennett J & Prentice A Effect of apolipoprotein E genotype on vitamin K status in healthy older adults from China and the UK. 956
Thomson CD, McLachlan SK, Grant AM, Paterson E & Lillico AJ The effect of selenium on thyroid status in a population with marginal selenium and iodine status. 962
Mahalanabis D, Islam MA, Shaikh S, Chakrabarty M, Kurpad AV, Mukherjee S, Sen B, Khaled MA & Varmund SH Haematological response to iron supplementation is reduced in children with asymptomatic *Helicobacter pylori* infection. 969
Miller MD, Daniels LA, Bannerman E & Crotty M Resting energy expenditure measured longitudinally following hip fracture compared to predictive equations: is an injury adjustment required?. 976
Dunnigan MG, Henderson JB, Hole DJ, Mawer EB & Berry JL Meat consumption reduces the risk of nutritional rickets and osteomalacia. 983
Nielsen BM, Bjørnsbo KS, Tetens I & Heitmann BL Dietary glycaemic index and glycaemic load in Danish children in relation to body fatness. 992
Lillegaard ITL & Andersen LF Validation of a pre-coded food diary with energy expenditure, comparison of under-reporters *v.* acceptable reporters. 998

Schack-Nielsen L, Mølgaard C, Larsen D, Martyn C & Michaelsen KF Arterial stiffness in 10-year-old children: current and early determinants. 1004
Drzikova B, Dongowski G & Gebhardt E Dietary fibre-rich oat-based products affect serum lipids, microbiota, formation of short-chain fatty acids and steroids in rats. 1012
Diepvens K, Kovacs EMR, Nijs IMT, Vogels N & Westerterp-Plantenga MS Effect of green tea on resting energy expenditure and substrate oxidation during weight loss in overweight females. 1026
